

Fermilab CD Computing Center Visitor / Vendor Log

Visitors and vendors without Fermilab ID card access to FCC, GCC and LCC are required to register their visit. A Fermilab employee with a tour group of ten or more people may register the group with a single log entry. For safety and accountability concerns, it is also necessary to record the time you leave.

** If you are here on business to perform work duties in the computer room, you need to verify your understanding of the Computer Room Job Hazard Analysis form located at the front of this binder.*
